

MTI – GKMC/BKMC SWABI

PAKISTAN INDEPENDENCE DAY CELEBRATION IN SOLIDARITY WITH THE NATION

Dr. Sahibzada M. Khalid.

MTI – GKMC/BKMC SWABI Celebrates Pakistan 75th Independence Day with Patriotic Zeal And Fervor. The Administration of MTI-GKMC/BKMC celebrated Pakistan 75th Independence Day by hoisting National Flag followed by National Anthem. The Dean/Chief Executive – Dr. Shams Ur Rahman hoisted the National Flag and was accompanied by Hospital Director, Medical Director and other administrative staff.

NATIONAL FLAG HOISTING CEREMONY & NATIONAL ANTHEM PLAYED

All prayed, "Almighty Allah make Pakistan cradle of knowledge and peace, protect its people from all calamities and their freedom and help them realize those goals for which this separate homeland was carved out."

Plantation of more than 640 plants was made by the administration and students of MTI-GKMC/BKMC Swabi.

SEHAT SAHULAT PROGRAM INAUGURATED and started its function from August 14, 2021.

it is considered as a milestone towards social welfare reforms, ensuring that the identified under-privileged citizens across the country get access to their entitled medical healthcare in a swift and dignified manner without any financial obligations. The MTI-GKMC/BKMC Swabi was still deprived of this facility and on August 14, 2021 onwards it started functioning.

ARRIVAL OF GUESTS

The Honourable Speaker – National Assembly of Pakistan, Mr. Asad Qaiser, Honourable Ministers for Health & Finance, Education, Mr. Taimour Khan Jhagra and Mr. Shehram Khan Tarakai. The Chairman Board of Governors – Maj. Gen. Salahuddin launches monsoon plantation drive today, August 14, 2021 in solidarity with the nationwide activity in the monsoon season as part of the Ten Billion Tree Tsunami.

Guests Planted Trees

KIDNEY DIALYSIS UNIT ESTABLISHED AND OPENED AT MTI – GKMC/BKMC SWABI for poor masses of the land.

The Honourable Speaker, National Assembly of Pakistan, Minister for Health & Finance and Minister for Education inaugurated the Dialysis unit.

Kidney Dialysis is one of the common solutions that kidney patients take in their later stage. Their main goal of treatment is to relieve symptoms, prevent complications and delay kidney damage.

Respected Guests visited patients and enquire about their health and facilities provided to them. They showed entire satisfaction on the treatment and behavior of the staff.

Salute to Dr. Tariq Ikram, Mr. Zulfiqar & Team, these were the fathomless efforts of Dr. Tariq Ikram – Nephrologist and his team, which proved fruitful. He established the entire unit within a span of ten to twelve days and no doubt Hospital Director and Medical Director along with Manager Facilities and Nursing Director support was unprecedented.

Dialysis performs the functions of kidneys if they have failed. According to the National Kidney Foundation, end stage kidney failure occurs when the kidneys are performing at only 10 to 15% of their normal function.

Celebrations by students of MTI- Ghajju Khan Medical College, Swabi.
